**Dr. Lou Graham**  
**'Geriatric Dentistry: The Fastest Growing Demographic in Dentistry'**

Thursday, April 11, 2019

**Course Objective:** With patients entering their 8<sup>th</sup> and 9<sup>th</sup> decades of life and even more, our role as health care providers continues to face new challenges in treating this population. As these patients walk into our offices, they present challenges that are often unique and require customized approaches to their care.

**Learning Objectives:**

- Prevention is for all ages and doesn't stop here!
- Why this patient population loves our in-office: "PREVENTION PLAN"
- Customizing your approaches for plaque, xerostomia and so much more
- Reparative dentistry, when, where and why and what materials are best to utilize
- Customized periodontal protocols that go beyond brushing and flossing
- Advanced restoratives technique for: post and cores, deep class 2's, "elevating the margin" technique, perio-splinting, choosing the right cement

**Dr. GRAHAM** is an internationally recognized lecturer extensively involved in continuing education for dental professionals. His lectures focus on incorporating current clinical advancements through "conservative dentistry." He emphasizes the same concepts he practices: dental health diagnosis, treatment plans for medically compromised patients, conservative treatment, cosmetic dentistry, and customized approaches to periodontal care, implants and laser dentistry. Dr. Graham is the founder of Catapult Education, a continuing education company whose philosophy and programs use contemporary, interactive formats to integrate time-proven conservative dentistry with 21st century materials and techniques. Dr. Graham is a published author in many leading national and international dental journals. Dr. Graham is a graduate of Emory Dental School.

**This program is sponsored by Catapult.**

**All programs are suitable for doctors, staff, and hygienists.**

2

**Dr. Howard Glazer**

**'I Have It...You Need It! - Must Have Products & Materials for Restorative Dentistry'**

Wednesday, June 5, 2019

**Course Objective:** This is a program about real dentistry for real people by a real dentist! Dr. Glazer will present a potpourri of the materials and techniques that he uses to make the day more productive, easier and fun! The entire dental team will benefit from learning together about the latest products and how they will benefit your patients. Dr. Glazer writes a bi-monthly column on new materials and products called "I Have It...You Want It" Dental Economics magazine, and reviews new products and materials on a regular basis for his column.

**Learning Objectives:**

- To learn the different types of restorative materials in various product categories
- To learn what is faster, easier and better
- To be able to evaluate product claims and merit
- To understand the benefits of ouchless anesthesia
- To understand the value of continual doctor/patient communication
- To understand how to utilize many of the newer bio-active materials

**Dr. Howard Glazer** is a Fellow and Past President of the Academy of General Dentistry, and former Assistant Clinical Professor in Dentistry at the Albert Einstein College of Medicine (Bronx, NY). He has been a visiting clinician at several universities around the country. He is a Fellow of the American College of Dentists; International College of Dentists; American Society for Dental Aesthetics, the American Academy of Forensic Sciences, and a Diplomate of the American Board of Aesthetic Dentistry. Dr. Glazer is an Attending Dentist at the Englewood Hospital (Englewood, NJ). Additionally, Dr. Glazer is the Deputy Chief Forensic Dental Consultant to the Office of Chief Medical Examiner, City of New York.

For the past several years, Dr. Glazer has been named as one of the "Leading Clinicians in Continuing Education" by Dentistry Today, and was named as one of the Top Dentists in New Jersey by New Jersey Monthly, 201 Magazine, and Bergen Magazine. He lectures throughout the United States, Canada, and overseas, on the subjects of dental materials, cosmetic dentistry, forensic dentistry and patient management. Additionally, Dr. Glazer is a frequent author of dental articles and has been published throughout the world. For 14 years he published a column in AGD IMPACT entitled "What's Hot and What's Getting Hotter!" Presently, he publishes the column "I Have It...You Need It!" in Dental Economics. He maintains a general practice in Fort Lee, NJ.

**Dr. Thomas Dudney**

**'Be Aware of Wear: A Systematic Approach to Diagnosing, Treatment Planning, and Restoring the Worn Dentition'** and **'To Smile or not to Smile: Why Truly Understanding Smile Design Principles is so Important to you and Your Patient'**

Friday, September 20, 2019

**Course Objective:** In today's society tooth wear is more prevalent than ever and it is therefore incumbent upon the entire dental team to be well versed in recognizing the clinical signs of wear while understanding the importance of prevention when possible and the restorative options when necessary.

**Learning Objective:**

- Recognize the clinical signs of intrinsic and extrinsic erosion.
- Designing an occlusal scheme that fits the grinding patterns of the patient.
- Bite opening vs. crown lengthening vs. orthodontic intrusion to gain space for restorations.
- A systematic approach in the treatment of simple to complex wear cases.

**Course Objective:** Today patients seeking aesthetic procedures and smile makeovers have high expectations. . In order to meet patient demands, we must summon both our artistic and scientific skills, combining a thorough understanding of smile design principles in order to achieve the desired results. . Also included in the presentation will be the importance of composite mock-ups, provisional restorations, laboratory communication, and multidisciplinary teamwork.

**Learning Objective:**

- Why incisal edge position is so important and how to determine it.
- Visualization, preparation, and communication with composite mock-ups.
- How to evaluate provisional aesthetically, functionally and phonetically to insure clinical success.
- The importance of the relationship between the teeth, gingival scaffold, and lips.

**Thomas E. Dudney, DMD** is a 1977 graduate of University of the Alabama at Birmingham School of Dentistry. He has served as the Clinical Director for the Aesthetic Advantage programs taught by Dr. Larry Rosenthal at New York University and the Eastman Dental Clinic in London. He was the clinical Director for the California Center for Advanced Dental Studies (CCADS) live patient programs taught in the US, Canada, and the UK. Presently he is the clinical director for the newly formed Pacific Aesthetic Continuum (PAC) hands-on programs.

**This program is sponsored by Catapult.**

**Dr. Paresh Shah**

**'THE 21st CENTURY CLINICIAN, STAYING RELEVANT IN A FAST CHANGING WORLD'** and **"CONTEMPORARY ESTHETICS FOR EVERYDAY PRACTICE"**

Friday, October 25, 2019

**Course Objective:**  
**The 21st Century Clinician**

Whether it's related to diagnostics, clinical dentistry, or indirect lab procedures, it's hard to ignore the fact that technology affects us all in one way or another. There are many well-established, evidenced-based principles that guide our clinical decisions. However, science and technology have advanced and it's important for dentists to understand how they can best utilize these technologies to enhance patient care.

We will discuss a variety of scanning technologies and cad/cam options to show how they can be easily implemented. Lab communication and digital smile design workflows will be presented using clinical cases. Materials and product updates will be a part of this program. Participants will be shown ways to implement a variety of technologies in a convenient manner at your own pace. Participation of team members would be beneficial to help with implementation of many of these concepts and technologies.

**Course Objective:**  
**Contemporary Esthetics for Everyday Practice**

This lecture will provide an update of current restorative materials and present clinical examples to help you understand their proper use. You will learn ways to make your everyday restorative treatments simple, predictable and profitable. We will review direct and indirect procedures through a series of clinical cases to easily visualize how to treat many of the challenges we encounter in everyday practice – on natural teeth and implants. You will be shown how mastering the basics can help you transition patients into more complex treatments. You will also learn practical techniques to simplify the restoration of your cases and be able to implement many of these immediately.

**Dr. Paresh Shah** maintains a private practice in Winnipeg, Canada with a focus on implant, cosmetic and interdisciplinary care. He graduated from the University of Manitoba in 1991.

Dr. Shah has a proficiency certificate in Esthetic Dentistry from the University of Buffalo (SUNY) in 2007 and a Masters in Physiology from the University of Manitoba in 1987. He is also a graduate of the Misch Implant Institute Prosthetic Program and the Kois Center in Seattle.

Dr. Shah serves as a consultant for numerous dental manufacturers in product development and evaluations. He is an active member of the Seattle Study Club network and also a founder and co-director of a Seattle Study Club in Winnipeg. He has used digital technology in his practice for over 9 years and provided over 250 lectures globally on all aspects of restorative, interdisciplinary care and digital dentistry.

**This program is sponsored by Ivoclar.**

*Excellence has become our tradition ...*

Dear Colleagues in Dentistry:

Corydon Palmer Dental Society's Continuing Education Committee is proud to announce the presenters for our 2019 CE season. Each of our four programs features outstanding speakers sharing the kind of experience and knowledge that will benefit our members, staff, and ADA colleagues.

Our long tradition of CE programming features presenters who have enhanced our reputation as a provider of quality CE programs. Our programs will cover topics of contemporary concern: **Geriatric Dentistry, I Have It... You Need It, Understanding the Smile Design. The 21st Century Clinician and Contemporary Esthetics.** We can all benefit from the richness of knowledge in these programs.

Your support has enabled us to offer our CE workshops at bargain prices. Corydon Palmer members and other ADA members can purchase the entire series for only \$775 if paid by January 1, 2019. After that the cost will be \$825. Nonmembers may purchase the series for \$925. It's easy to see the benefits of series membership, as the cost for each of the four courses on an individual basis will be \$290 for CPDS and ADA members, \$340 for nonmembers. Staff/spouses \$65, and retired members who receive no income from dentistry are invited to attend for \$45 per course. Residents are \$45 per course also.

Those who attend the full series will earn more than the required hours of CE training for the year. Please note: speakers and/or topics may change for reasons beyond our control.

**Please note that this year's courses will ALL be held at the Holiday Inn Boardman; directions are on the back of this brochure.** We urge you to join us for some of the finest CE courses in the state and beyond!

Best regards,

The Continuing Education Committee

Corydon Palmer  Dental Society  
since 1913
