

Welcome to our first CE program of 2020

Dr. John Svirsky

'Come In And Catch It: The Review That Sticks' and 'It's More Than Physical'

Wed. January 15, 2020

Course #1 Objective:

Perfect review course that covers the recognition, diagnosis and treatment of the 25 soft tissue lesions that every dentist and hygienist should know and treat appropriately. Numerous entities only require recognition. Classic lesions that have been forgotten since school will be brought back to life and your diagnostic confidence will be re-energized. Dr. Svirsky makes oral pathology fun!

- Demonstrate logical approach to diagnosis of oral lesions
- Recognize & diagnose common soft tissue lesions/diseases found in a dental practice.
- Integrate therapeutic regimens used to treat selected oral diseases such as aphthous ulcerations, herpes, candidiasis, angular cheilitis & lichen planus.

Course #2 Objective:

New course for 2020 will be a review of physical and chemical injuries. Course will include electrical and other burns, traumatic injuries, osteonecrosis, oral sexual practices, chemotherapy complications, cosmetic fillers and much more. Just to keep your interest, chewers, pickers, pokers and "midnight tokers" (Steve Miller Band) will make appearances. Get ready to have a wild oral pathology ride. This course is rated PG13.

- Recognize & treat lesions related to physical & chemical injuries
- Logical approach to diagnosis & treatment of burns/traumatic injuries
- Develop a logical approach to management of chemotherapy complications
- Develop a logical approach to management of radiation complications
- Recognize oral sexual injuries
- Recognize traumatic injuries from both heat & cold
- Diagnose & treat osteonecrosis
- Recognize lesions found in pickers & chewers
- See some unusual cases that even embarrass me (that may be an exaggeration)
