Dr. John Svirskey

Course #1 Objective: Perfect review course that covers the recognition, diagnosis and treatment of the 25 soft tissue lesions that every dentist and hygienist should know and treat appropriately. Numerous entities only require recognition. Classic lesions that have been forgotten since school will be brought back to life and your diagnostic confidence will be re-energized. Dr. Svirskey makes oral pathology fun!

- Demonstrate logical approach to diagnosis of oral lesions
- Recognize & diagnose common soft tissue lesions/ diseases found in a dental practice.
- Integrate therapeutic regimens used to treat selected oral diseases such as aphthous ulceraions, herpetic, candidiasis, angular cheilitis & lichen planus.

At the end of this course, participants should be able to:
- Understand how to intervene medically in the caries process.
- Control patient caries risk with focused therapeutics.
- Design restorations to minimize recurrent decay.
- Improve the prognosis of restorative treatment.

Dr. Nový is the President of the DentaQuest Oral Health Center, Director of Practice Improvement at the DentaQuest Institute, and an adjunct associate professor of general dentistry. He served on the ADA Council of Scientific Affairs 2010-2014, and as a member of the CAMBR coalition through 2015. The California Dental Association Foundation presented him with the Dugoni Award for "Outstanding contributions to dental education," and in 2009, the American Dental Association awarded Dr. Nový and his office the title, "Outstanding Preventive Care Practice of the Year."

Dr. Robert Lowe

Course Objective: According to Dr. Harold M. Shavell, who many consider “The Michelangelo of Dentistry”, Occlusion is the Common Denominator of All Dentistry.” Every restoration placed has the potential to profoundly alter the occlusal and/or the incisal relationships of the patients’ dentition. Thus, understanding, visualizing, and reproducing human dentate morphology regardless of the material used...(is) the key to long lasting dental restoration.

- Improve the prognosis of restorative treatment.
- Understand how to intervene medically in the caries process.
- Control patient caries risk with focused therapeutics.
- Design restorations to minimize recurrent decay.
- Improve the prognosis of restorative treatment.

Dear Colleagues in Dentistry:

Corydon Palmer Dental Society’s Continuing Education Committee is proud to announce the presenters for our 2020 CE season. Each of our four programs features outstanding speakers sharing the kind of experience and knowledge that will benefit our members, staff, and ADA colleagues.

Our long tradition of CE programming features presenters who have enhanced our reputation as a provider of quality CE programs. Our programs will cover topics of contemporary concern: Come in and Catch It, It’s More Than Physical., PACE not Program dentistry by or a course or speaker.

Please note that CPDS cannot be held responsible for quality speakers. We sincerely hope all courses will be interesting and enjoyable for all. However, please understand that CPDS cannot be held responsible for content and cannot issue refunds to participants who are disappointed with a course or speaker.

The Continuing Education Committee

---

Excellence has become our tradition...

Approved PACE Program Provider
