

Welcome to our Final CE program of 2019!

'THE 21st CENTURY CLINICIAN, STAYING RELEVANT IN A FAST CHANGING WORLD' and 'CONTEMPORARY ESTHETICS FOR EVERYDAY PRACTICE'

Dr. Paresha Shah

Friday October 25, 2019

Course Objective: The 21st Century Clinician Whether it's related to diagnostics, clinical dentistry, or indirect lab procedures, it's hard to ignore the fact that technology affects us all in one way or another. There are many well-established, evidenced-based principles that guide our clinical decisions. However, science and technology have advanced and it's important for dentists to understand how they can best utilize these technologies to

enhance patient care.

We will discuss a variety of scanning technologies and cad/cam options to show how they can be easily implemented. Lab communication and digital smile design workflows will be presented using clinical cases. Materials and product updates will be a part of this program. Participants will be shown ways to implement a variety of technologies in a convenient manner at your own pace. Participation of team members would be beneficial to help with implementation of many of these concepts and technologies.

Course Objective:

Contemporary Esthetics for Everyday Practice

This lecture will provide an update of current restorative materials and present clinical examples to help you understand their proper use. You will learn ways to make your everyday restorative treatments simple, predictable and profitable. We will review direct and indirect procedures through a series of clinical cases to easily visualize how to treat many of the challenges we encounter in everyday practice – on natural teeth and implants. You will be shown how mastering the basics can help you transition patients into more complex treatments. You will also learn practical techniques to simplify the restoration of your cases and be able to implement many of these immediately.

Dr. Paresh Shah maintains a private practice in Winnipeg, Canada with a focus on implant, cosmetic and interdisciplinary care. He graduated from the University of Manitoba in 1991. He has a proficiency certificate in Esthetic Dentistry from the University of Buffalo (SUNY) in 2007 and a Masters in Physiology from the University of Manitoba in 1987. He is also a graduate of the Misch Implant Institute Prosthetic Program and the Kois Center in Seattle.

Dr. Shah serves as a consultant for numerous dental manufacturers in product development and evaluations. He has used digital technology in his practice for over 9 years and provided over 250 lectures globally on all aspects of restorative, interdisciplinary care and digital dentistry.

This program is sponsored in part by Ivoclar.
All programs are suitable for doctors, staff, and hygienists.

Registration Information

This meeting will take place at **Holiday Inn Boardman, 7410 South Avenue, Boardman, Ohio, from 8:30 a.m. to 4:30 p.m.** Registration begins at 8 a.m.; lunch is included in the seminar fee. For more information, please call Corydon Palmer Dental Society at 330. 719.1297

Continuing Education Credit: Corydon Palmer Dental Society is an approved sponsor of the Ohio State Dental Board and the board will accept 6 hours toward the continuing education requirements for all courses. These courses are also accepted by the Academy of General Dentistry for continuing education credit.

Please note: Corydon Palmer Dental Society works hard to identify and select top-quality speakers. We sincerely hope all courses will be interesting and enjoyable for all. However, please understand that CPDS cannot be held responsible for content and cannot issue refunds to participants who are disappointed with a course or speaker.
